

ML Resources List Recommended by Dr. Faisal

1. [Machine Learning Course - CS 156 by Caltech Professor Yaser Abu-Mostafa](#)
2. [Evolution Of Object Detection Networks](#)
3. [Generative Adversarial Networks \(GANs\) by Ahlad Kumar](#)
4. [Sequence Models: RNN by Andrew Ng](#)
 - a. Click Enroll for Free
 - b. Don't click on 'Start Free Trial.' Instead, scroll to the bottom of the page and click on 'Audit the course.' This lets you access it for free. If you choose 'Start Free Trial,' you'll need to enter your credit card details. So, remember to select 'Audit' to watch it without paying.
5. [Word2Vec - Skipgram and CBOW](#)
6. [Attention Models by Shusen Wang](#)
7. [Intro to Large Language Models by Andrej Karpathy](#)
8. [BERT by Stanford by Jacob Devlin](#)
9. [Basics of RAG](#)
10. [Advanced RAG \(RAG++\)](#)
11. [LLM Evaluation](#)
